Aug. 2021 - May 2024

Blacksburg, VA

Relevant Coursework

- Intro to Quantitative Analysis
- Applied Statistics
- Regression & Predictive Modeling
- Causal Inference
- Data Visualization
- Machine Learning for Social Scientists
- Research Design
- SQL & Database Management
- Exploratory Data Analysis

Experience

Steve Fisher Consulting | *Data Analytics & Strategy Consultant*

May 2025 - Apr. 2026 | *Menifee, CA*

- Analyzed client engagement, retention, and conversion data to support business and digital strategy decisions.
- Built KPI dashboards and predictive models for marketing, operations, and customer behavior; improved client-facing workflows and reporting.

Simple Coaching Inc. | *Digital Strategy & Analytics Consultant*

Mar. 2025 - Aug. 2025 | *Remote*

- Used customer journey, SEO, and performance analytics to improve service pages, digital strategy, and customer experience.
- Worked with leadership on new service offerings, digital audits, website improvements, and data-informed outreach.

ProDose | *Product Manager*

Sep. 2026 - Present | *Amherst, MA*

- Lead product development for a smart medication dispenser with a five-person UMass Mechanical & Industrial Engineering senior capstone team.
- Translate product requirements into CAD, 3D-printed prototypes, test plans, design refinements, and manufacturability decisions.

Zad Holding Company Q.P.S.C. | *Data Analytics Intern*

Mar. 2021 - Aug. 2021 | *Doha, Qatar*

- Built datasets, database structures, and Power BI reporting workflows to support operational analysis and reduce manual reporting.
- Completed a client analytics project for Ooredoo Qatar using customer usage data, statistical inference, and Power BI to develop a mobile data-plan recommendation.

Projects

Karnah | *Product Strategy, Social Impact, Matching*

UMass Amherst

- Developed an in-kind donation platform concept for matching usable items with nonprofit needs; won second place and a \$750 prize at UPitch Spring 2026.

Dynamic Pricing Model for ReCell | *Python, Linear Regression, EDA*

UT Austin

- Developed a regression-based pricing model on 20,000+ refurbished-device sales and identified key drivers of resale value.

CalendAI | *Predictive Modeling, A/B Testing, AWS, MongoDB, Node.js, React*

Virginia Tech

- Applied behavioral modeling and experimentation to an intelligent scheduling concept; the project received a \$500 KickStart VT seed grant.

Technical Skills

Consulting: Business Analysis, Requirements Analysis, KPI Design, Process Improvement, Digital Strategy, Customer Experience

Analytics: Python, SQL, R, Power BI, Statistical Analysis, Predictive Modeling, Customer Analytics

Technology: MongoDB, Google Cloud, React, Node.js, Docker, Git, Data Visualization

Honors / Awards

The Action Taker Award: Recognized by LISC Massachusetts & the IXL Center for digital strategy and analytics work completed through the LISC Digital Growth Accelerator.

KickStart VT Seed Grant Winner - CalendAI: \$500 seed grant from the Apex Center for Entrepreneurs at Virginia Tech.
