Education

University of Massachusetts Amherst

Master of Science in Data Analytics & Computational Social Science (DACSS)

Sep. 2025 - May 2027 (Expected)

Amherst, MA

The University of Texas at Austin

Postgraduate Diploma in Data Science & Business Analytics

Jan. 2024 - Sep. 2024

Austin, TX

Virginia Tech

Bachelor of Science in Psychology (Minor in Computer Science)

Aug. 2021 - May 2024

Blacksburg, VA

Relevant Coursework

- Machine Learning for Social Scientists
- Text as Data
- Data Science Fundamentals
- Causal Inference
- Network Inference
- Regression & Predictive Modeling
- Model Tuning & Validation
- Applied Statistics
- Python for Data Science

Experience

Steve Fisher Consulting | *Data Analytics & Strategy Consultant*

May 2025 - Apr. 2026 | *Menifee, CA*

- Analyzed client engagement, retention, and conversion data to support business and digital strategy decisions.
- Built KPI dashboards and predictive models for marketing, operations, and customer behavior; improved client-facing workflows and reporting.

Google Developer Student Clubs | *Featured Speaker - AI for Mental Health*

Aug. 2023 - Nov. 2023 | *Blacksburg, VA*

- Presented applications of machine learning for personalized mental-health interventions to 150+ participants.
- Built supporting Power BI visualizations and discussed the use of behavioral science and data-driven methods in health technology.

Intercare Therapy, Inc. | *Behavioral Health Technician*

Jan. 2025 - Jun. 2025 | *San Diego, CA*

- Collected and reviewed behavioral data during ABA sessions and used client progress to inform session-level adjustments under clinical supervision.
- Implemented reinforcement schedules, prompt fading, and task analysis while maintaining HIPAA requirements and coordinating with caregivers.

Zad Holding Company Q.P.S.C. | *Data Analytics Intern*

Mar. 2021 - Aug. 2021 | *Doha, Qatar*

- Built datasets, database structures, and Power BI reporting workflows to support operational analysis and reduce manual reporting.
- Completed a client analytics project for Ooredoo Qatar using customer usage data, statistical inference, and Power BI to develop a mobile data-plan recommendation.

Projects

Mental Health Signal on Reddit | *Python, NLP, scikit-learn, Transformers, Plotly Dash*

UMass Amherst

- Collected and analyzed 25,886 posts and comments from three mental-health communities; compared three sentiment methods and three classifiers, conducted topic analysis, and built an interactive dashboard.

Face Recognition Software | *Python, TensorFlow, Computer Vision*

Independent

- Built a deep-learning face-detection system that reached 93% accuracy after hyperparameter tuning and reduced inference time by 25% with GPU acceleration.

Dynamic Pricing Model for ReCell | *Python, Linear Regression, EDA*

UT Austin

- Developed a regression-based pricing model on 20,000+ refurbished-device sales and identified key drivers of resale value.

Technical Skills

Languages: Python, R, SQL, JavaScript

Machine Learning: scikit-learn, TensorFlow, Transformers, NLTK, Classification, Clustering, Regression, Model Tuning

Data / Tools: Pandas, NumPy, MongoDB, Power BI, Plotly Dash, Git, Docker

Honors / Awards

The Action Taker Award: Recognized by LISC Massachusetts & the IXL Center for digital strategy and analytics work completed through the LISC Digital Growth Accelerator.

KickStart VT Seed Grant Winner - CalendAI: \$500 seed grant from the Apex Center for Entrepreneurs at Virginia Tech.

Future Founder Startup Award - Minute Pitch Competition: \$300 award from the Berthiaume Center for Entrepreneurship at UMass Amherst.

UPitch Spring 2026 Second Place - Karnah: Awarded second place and a \$750 prize at UMass Amherst.
