Education

University of Massachusetts Amherst

Master of Science in Data Analytics & Computational Social Science (DACSS)

Sep. 2025 - May 2027 (Expected)

Amherst, MA

The University of Texas at Austin

Postgraduate Diploma in Data Science & Business Analytics

Jan. 2024 - Sep. 2024

Austin, TX

Virginia Tech

Bachelor of Science in Psychology (Minor in Computer Science)

Aug. 2021 - May 2024

Blacksburg, VA

Relevant Coursework

- Research Design
- Text as Data
- Data Visualization
- Causal Inference
- Intro to Quantitative Analysis
- Statistics for Social Science
- Machine Learning for Social Scientists
- Applied Statistics
- Human-Computer Interaction

Experience

Intercare Therapy, Inc. | Behavioral Health Technician

Jan. 2025 - Jun. 2025 | San Diego, CA

- Collected and reviewed behavioral data during ABA sessions and used client progress to inform session-level adjustments under clinical supervision.
- Implemented reinforcement schedules, prompt fading, and task analysis while maintaining HIPAA requirements and coordinating with caregivers.

ProDose | Product Manager

Sep. 2026 - Present | Amherst, MA

- Lead product development for a smart medication dispenser with a five-person UMass Mechanical & Industrial Engineering senior capstone team.
- Translate product requirements into CAD, 3D-printed prototypes, test plans, design refinements, and manufacturability decisions.

Steve Fisher Consulting | Data Analytics & Strategy Consultant

May 2025 - Apr. 2026 | Menifee, CA

- Analyzed client engagement, retention, and conversion data to support business and digital strategy decisions.
- Built KPI dashboards and predictive models for marketing, operations, and customer behavior; improved client-facing workflows and reporting.

Google Developer Student Clubs | Featured Speaker - AI for Mental Health

Aug. 2023 - Nov. 2023 | Blacksburg, VA

- Presented applications of machine learning for personalized mental-health interventions to 150+ participants.
- Built supporting Power BI visualizations and discussed the use of behavioral science and data-driven methods in health technology.

Projects

Mental Health Signal on Reddit | Python, NLP, scikit-learn, Transformers, Plotly Dash

UMass Amherst

- Collected and analyzed 25,886 posts and comments from three mental-health communities; compared three sentiment methods and three classifiers, conducted topic analysis, and built an interactive dashboard.

MeAsmi | Clustering, Supervised Learning, Behavioral Analytics

Independent

- Co-led an interdisciplinary project exploring machine-learning methods for neurodivergent support and therapy-effectiveness analysis.

CalendAI | Predictive Modeling, A/B Testing, AWS, MongoDB, Node.js, React

Virginia Tech

- Applied behavioral modeling and experimentation to an intelligent scheduling concept; the project received a \$500 KickStart VT seed grant.

Technical Skills

Health / Behavior: Behavioral Measurement, ABA, HIPAA, Outcomes Tracking, Behavioral Analytics, User-Centered Health Technology

Analytics: Python, R, SQL, Statistical Analysis, Regression, Clustering, NLP, Machine Learning

Tools: scikit-learn, TensorFlow, Transformers, NLTK, Power BI, Plotly Dash

Honors / Awards

The Action Taker Award: Recognized by LISC Massachusetts & the IXL Center for digital strategy and analytics work completed through the LISC Digital Growth Accelerator.

KickStart VT Seed Grant Winner - CalendAI: \$500 seed grant from the Apex Center for Entrepreneurs at Virginia Tech.
