| • Intro to Quantitative Analysis | • Human-Computer Interaction | • Data Visualization |
| • Applied Statistics | • Machine Learning for Social Scientists | • Problem Solving in CS |

Experience

ProDose | *Product Manager*

Sep. 2026 - Present | *Amherst, MA*

- Lead product development for a smart medication dispenser with a five-person UMass Mechanical & Industrial Engineering senior capstone team.
- Translate product requirements into CAD, 3D-printed prototypes, test plans, design refinements, and manufacturability decisions.

Simple Coaching Inc. | *Digital Strategy & Analytics Consultant*

Mar. 2025 - Aug. 2025 | *Remote*

- Used customer journey, SEO, and performance analytics to improve service pages, digital strategy, and customer experience.
- Worked with leadership on new service offerings, digital audits, website improvements, and data-informed outreach.

Virginia Tech Dining Services - Dietrick | *Student Manager*

Aug. 2021 - Apr. 2024 | *Blacksburg, VA*

- Managed daily operations in a high-volume dining facility while training, supervising, and providing performance feedback to staff.
- Maintained customer-service, food-safety, and operational standards across a fast-paced multi-function environment.

Franklin County Community Development Corporation | *Entrepreneurs Accelerator Program Participant*

Mar. 2026 - May 2026 | *Greenfield, MA*

- Selected for the Spring 2026 cohort and worked on business strategy, market positioning, venture planning, and execution through mentorship and structured training.

Projects

CalendAI | *Predictive Modeling, A/B Testing, AWS, MongoDB, Node.js, React*

Virginia Tech

- Applied behavioral modeling and experimentation to an intelligent scheduling concept; the project received a \$500 KickStart VT seed grant.

Karnah | *Product Strategy, Social Impact, Matching*

UMass Amherst

- Developed an in-kind donation platform concept for matching usable items with nonprofit needs; won second place and a \$750 prize at UPitch Spring 2026.

MeAsmi | *Clustering, Supervised Learning, Behavioral Analytics*

Independent

- Co-led an interdisciplinary project exploring machine-learning methods for neurodivergent support and therapy-effectiveness analysis.
